

The North Little Rock Ecclesia

STATEMENT OF RESPONSE

In response to the

North American Statement of Understanding Ballots

January of 2005

---

In response to the recently received ballots, the NLR Ecclesia wishes to restate our position on the NASU documents as written.

We wish to emphatically state that this document does not clearly express the beliefs of the Unamended Community throughout North America. We have concluded that to endorse this document would be a cause for disunity among Brethren and possibly bring harm to the Unamended Community of the Household of Christ.

Therefore, we respectfully reject the North American Statements of Understanding and remain planted in the hope of Israel as expressed in the Birmingham Unamended Statement of Faith. We have previously stated our position in detail to the Christadelphian Advocate and continue to stand by that statement.

On behalf of the Brethren of the North Little Rock Ecclesia
